

The image is a screenshot of the MIT App Inventor web interface. At the top, there's a navigation bar with links like 'MIT App Inventor', 'Explore MIT x', 'MIT App Inventor', 'Projects', 'Connect', 'Build', 'Help'. Below this is a search bar and a 'Memo' section. The main workspace is divided into several panels: 'Palettes' on the left containing 'User Interface' (Button, CheckBox, DatePicker, Image, Label, ListPicker, ListView, Notifier, PasswordTextBox, Slider, Spinner, TextBox, TimePicker, WebViewer) and 'Non-visible components' (SeveralDB). The 'Viewer' panel in the center shows a mobile app preview with a status bar at the top displaying '付箋風メモ帳', signal strength, and time '9:48'. The app interface includes a large white area with a small icon, and a bottom navigation bar with buttons for '前のメモ', '消す', 'ページ: 1/1', and '次のメモ'. On the right side, there are 'Components' and 'Properties' panels. The 'Components' panel lists various UI elements like Screen1, Canvas1, SpaceLabel0, HorizontalArrangement1, ColorText, ColorListPicker, SpaceLabel1, LineText, WeightListPicker, SpaceLabel2, BackLabel, BackListPicker, HorizontalArrangement3, SpaceLabel3, PageLabel, Page, HorizontalArrangement2, and PrevButton. The 'Properties' panel shows settings for the selected 'Canvas1' component, including BackgroundColor, BackgroundImage, FontSize, Height, Width, LineWidth, PaintColor, TextAlignment, and Visible. At the bottom right, there's a 'Media' panel with an 'Upload File ...' button.
